Joseph E. Kernan, Governor
Alan D. Degner, Commissioner

NEWS EMBARGOED UNTIL: Friday, January 9, 2004

Indiana's preliminary unemployment rate is 4.7% for November compared to National rate of 5.6%

Indiana's non-seasonally adjusted unemployment rate for November is 4.7 percent, nine-tenths of a percentage point below the national rate of 5.6 percent, Alan D. Degner, Commissioner for the Indiana Department of Workforce Development, announced today. The number of Hoosiers employed during November 2003 was 3,055,100.

Indiana's November unemployment rate was lower than Illinois, 6.4 percent; Michigan, 6.5 percent; Ohio, 5.3 percent; and Kentucky at 5.1 percent.

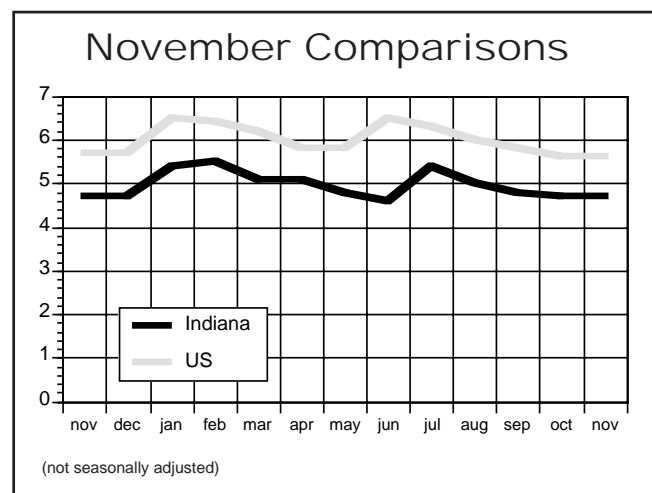

"For the second month in a row we've seen a drop in the state's unemployment rate," commented Degner. "Most likely this can be attributed to the growth in the retail trade and services industries due to the demands of holiday shopping."

The monthly survey of 7,500 Hoosier employers reports payroll employment at 2,904,100 a decrease of 22,800 from one year ago and 4,700 more than last month. Payroll employment is an estimate of non-agricultural jobs in Indiana businesses. It differs from labor force employment which is used in the calculation of the unemployment rate by not including the self-employed and agricultural workers. In addition, payroll employment includes all those who work in Indiana, while the unemployment rate is calculated by those who live in Indiana.

Manufacturing employment totals 574,300 in November, a decrease of 14,800 from last year. Motor vehicle manufacturing accounts for 13,600 jobs, 600 more than one year ago. Manufacturing of motor vehicle parts totals 78,600. Machinery manufacturing in November accounts for 43,500 Hoosier jobs, 300 more than October.

Construction employment totals 149,700 a decrease of 1,600 from last month. Of that, heavy construction reports 18,400 jobs, 600 less than last month.

Service producing employment totals 2,172,800 in November, 17,400 less than last year. Transportation and public utilities total 120,300, 100 more than October.

(over)

Retail trade totals 349,500, 1,400 more than a year ago. Of that, general merchandise stores report employment of 83,400, or 1,000 more than last year.

Indiana's estimated labor force (the number of people 16 years of age and older who are able and available for work) totals 3,207,100 in November 2003. An estimated 3,055,100 Hoosiers are employed and 152,000 are unemployed.

Indiana's labor force for November 2002 totaled 3,183,400. Hoosiers employed one year ago is estimated at 3,034,300 and November 2002 unemployed in Indiana totaled 149,100. Indiana's estimated unemployment rate one year ago was 4.7 percent, compared with the national unemployment rate of 5.6 percent in November 2002.*

Industry Payroll Employment

Selected Categories	November 2003	Change from Oct 2003	Change from Nov 2002
Goods Producing	731,300	-1,100	-5,400
•Construction	149,700	-1,600	+9,300
•Manufacturing	574,300	+500	-14,800
Service Producing	2,172,800	+5,800	-17,400
•Retail Trade	349,500	+10,500	+1,400

*Due to an expansion in the Current Population Survey (CPS), mandated by Congress, estimates for June 2001 (revised) and later at both the state and substate levels may not be fully comparable with those of earlier periods. In analyzing data, be aware that over-the-year comparisons, may differ slightly from comparisons that would have been made using data without the sample expansion. More detailed information can be found at <http://stats.bls.gov/launews1.htm>.

Indiana vs. U.S. Unemployment Rates November 2003
